

As an American citizen who expects information to be fairly offered by stations who are using the airwaves for the public good, I was very saddened to hear that Sinclair Broadcasting is planning on running negative information about Kerry. whether they are for or against one politician, they should be fair and not use their privelege of the airwaves to sway public oppinion. I hope you, the FCC, will do your job and keep them from doing this.

Thanks so much,

Beverly Stycos
